

TETRA PTS190 SOFTWARE UPGRADE PROCESS

This document explains the upgrade process via USB flash drive. Please follow the instructions below for the desired upgrade process.

<u>NOTE:</u> After updating terminal by USB Stick Please contact TMS to finish the full update.

MOVE5000 USB UPGRADE PROCESS

Follow the instructions below to update the MOVE 5000 through USB flash drive.

STEP 1: SLIDE TO OPEN THE MICRO USB PORT COVER

On the USB flash drive the Tetra PTS190 release is held in the folder named TELIUM3.

This contains the application package to be updated on the Tetra series terminal.

Ensure that terminal is turned off. To do this, press and hold down the FUNC + CLEAR key together for 2 seconds.

NOTE: To turn off ensure terminal is not sitting on the cradle or plugged to any external power source as this would automatically restart the terminal

- 2. Locate the grey cover on the left side of the terminal.
- **3.** Gently slide to open the protective cover so that the micro-USB port is visible.

USB micro AB

STEP 2: PLUG IN THE USB FLASH DRIVE

Insert the micro USB flash drive securely into the micro-USB port.

STEP 3: GETTING INTO 'VAL' TO CONFIRM MODE

Once the micro-USB flash drive is plugged in, turn the terminal back on by pressing the **ENTER** key. Straight after that, press and hold down the **FUNC** Key until the terminal is displaying **'VAL' TO CONFIRM** on the screen.

- 1. As soon as terminal enters into 'VAL' TO CONFIRM mode, press ENTER key to access USB folders.
- Terminal will display the terminal model application that will need to be downloaded. Select the correct folder in this case Move5000 (use CLR key to scroll) and press ENTER to download the application into the terminal displaying as follows: WAITING...
 USB UPDATE ...
- **3.** Once the application download is successfully completed, terminal will reboot automatically. Allow the terminal to go through the reboot process until payment screen is displayed. From the payment screen power down the terminal to remove the USB flash drive
